Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior art of record fail to anticipate or render obvious the claimed digital signal processing based serializer/de-serializer, comprising: a receiver that includes an analog to digital converter and a digital signal processor, the digital signal processor is operably coupled to an output of the analog to digital converter; wherein the analog to digital converter samples modulated serial data to generate digital samples of the modulated serial data; and the digital signal processor adaptively determines compensation operations to be performed by the receiver on the digital samples of the modulated serial data so that the digital samples of the modulated serial data may be properly characterized to extract digital data contained therein, ***wherein a selected compensation operation of the compensation operations is selectively operable to be performed by the DSP or by at least one additional module within receiver that is coupled to the DSP*** as claimed now.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
